Subject: Release of Building 816, Parcel A at Hunters Point Shipyard

Upon the request of The Department of Toxic Substance Control (DTSC), DHS reviewed radiological issues associated with Building 816, Hunters Point Shipyard. DHS has actively participated in review of site documentation and performed site visits. DHS has reviewed the information provided by the Department of the Navy in a letter and attached documents dated August 9, 2001 from Mr. Richard Mach, BRAC Environmental Coordinator. DHS had some further questions, which were directed, to the Navy's Radiological Affairs Support Office (RASO). These questions were adequately answered by way of e-mails which will be maintained in our files. Based on this review, DHS has concluded, that with respect to radiological issues, Building 816 in Parcel A at Hunters Point Shipyard is acceptable for unrestricted release.

If you need further assistance please contact Deirdre Dement of my staff at (916) 324-2209.
